

MICHIGAN ROAD INFRASTRUCTURE IMPROVEMENTS FROM COLD SPRING ROAD TO JUST SOUTH OF 86TH STREET

RebuildIndy is Mayor Greg Ballard's initiative to restore deteriorating thoroughfares, residential streets, sidewalks and bridges, as well as address neighborhood drainage and flooding issues and demolish unsalvageable abandoned homes that pose a public safety threat to neighborhoods. This investment in infrastructure will address problems throughout Indianapolis.

PROJECT SCOPE

The Department of Public Works (DPW) has completed an infrastructure improvement project on the northwest side of Indianapolis. The Michigan Road multi-use project included the construction of a shared path and resurfacing along Michigan Road from Cold Spring Road to Kessler Boulevard, a shared path and drainage system update from Kessler Boulevard to 75th Street and a shared path from 75th Street to just south of 86th Street. Planned improvements included street resurfacing, new sidewalks, crosswalks, ramps, and drainage repairs.

PROJECT DETAILS

PROJECT STATUS: Complete

CONSTRUCTION PERIOD: Summer 2010-Fall 2012

DESIGN CONSULTANT: Warner Anderson

PROJECT CONSTRUCTION COSTS: \$3.1 million

PROJECT BENEFITS:

Multi-use trail benefits

- Increased pedestrian safety
- Improved pedestrian traffic and connectivity between businesses and residents
- Reduced emissions and improved air quality by providing an alternate means of transportation
- Enhanced walking and biking infrastructure for physical activity

Resurfacing benefits

- Improved driving conditions for commuters
- Increased commuter safety

Drainage benefits

- Reduced storm water pollution
- Reduced flooding issues
